

SellerPro and Advanced Cuisine Technology, with their brands “The Space” and “Vesta Precision”, have formalized a commercial representation agreement for their products in the Balearic Islands

Palma, 15 de mayo de 2024

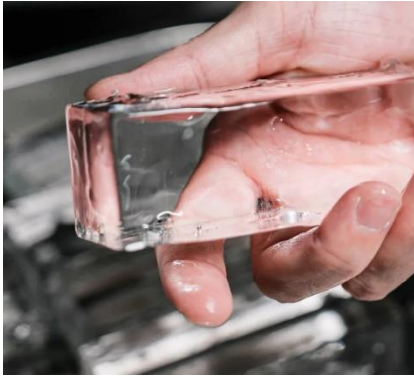

SellerPro, a B2B commercial representation agency in the Balearic Islands, has established a strategic collaboration with **Advanced Cuisine Technology**, featuring their renowned brands “**The Space**” and “**Vesta Precision**”, specialized in **advanced culinary technology** and **precision kitchen** products. The objective of this collaboration is to commercially represent The Space and Vesta Precision brands to companies distributing hospitality equipment and provide access to their technology to professionals in the HORECA (hospitality, restaurant, and catering) sector in the Balearic Islands.

The Space and Vesta Precision: Innovation and Quality in the Kitchen

The Space and Vesta Precision are known for their innovative solutions and high-quality products, including vacuum sealers, sous-vide cookers, blast chillers, and premium crystal-clear ice machines. Their products have received **international awards**, such as the Neovides range which won the “**Host Smart Label**” award at the latest edition of Host Milano. The portfolio of Advanced Cuisine Technology also features compostable vacuum bags.

Advanced Cuisine Technology and its commercial brands are synonymous with precision and efficiency in the realm of professional kitchen and cocktail making.

SellerPro: Expert Management in B2B Commercial Representation

SellerPro will be responsible for commercial representation in the Balearic Islands. With extensive experience and a focus on excellence in customer service, SellerPro positions itself as a strategic ally for manufacturers and distributors looking to optimize their operations and maximize their market performance.

Comments

“This agreement reinforces our commitment to offering advanced and cutting-edge solutions to distributors and professionals in the HORECA sector in the Balearic Islands,” said Joan Reus, director of SellerPro. “Our expertise in B2B commercial management, combined with the high quality and innovation of Advanced Cuisine Technology, allows us to offer a unique and differentiated product that will drive growth and competitiveness in the market.”

This agreement represents a significant step in strengthening the presence of both companies in the Balearic market and reflects their shared commitment to excellence in customer service and continuous innovation
